

Sujith Kumar Anand

Senior Product Design Manager — a design leader who still ships

Eleven years of product design, most recently in fintech, turning complex products into ones people trust. I lead the team, build the ways of working that let it scale, and still ship front-end with AI. Rooted in HCI research; grounded in engineering.

Roles, from research labs and startups to a top-20 brokerage

4

Countries studied and worked in: India, the UK, Sweden, Germany

Career

2014 — today

Experience

9 roles

FYERS 2024 — Present	Senior Product Design Manager Current - Lead product design across six verticals for a top-20 Indian retail brokerage, with a team of five designers today (eight at its largest). - A leading voice for moving from a split UX/UI relay to end-to-end Product Designers. - Directed design for the Options Scalper Terminal; delivery through the team I managed. - Delivered Wealth 360 end to end — PRD and an AI-generated concept through to Flutter-ready web and mobile; the front-end team estimated roughly 70% less implementation effort. - Leading AIDA, an internal agentic design framework that takes designers and product managers from ideation to Flutter code; proven on Wealth 360, now rolling out across design and product. - Two in-house hiring drives as the design organisation grew to 28 people.
Nexter Finance 2022 — 24	Design Lead · web3 / DeFi - Took a decentralised prediction market (crypto, stocks, commodities and real-world events) from zero to launch; led and personally designed desktop and mobile web. - Proposed launching Lossy Predictions first and a phased release, so the team shipped while scope was still moving; ran usability testing with six users. By January 2024 it had handled \$19M+ in volume and 1.7M+ predictions, and earned \$242K in fees.
Oddz Finance 2021 — 22	Design Lead · DeFi Led design of complex trading and options flows for non-expert users.
Datami 2018 — 21	Senior Product Designer → Lead Product Designer - Airtel TV Africa — the only designer, end to end, across 14 African markets; 450,000+ registered users in the first three by 2020. - Reach Mobile — led the website and mobile web, where 98% of sales happened, and rebuilt the purchase flow.
Two Roads Tech (Qplum) 2017 — Mar 18	Product Designer Owned all web journeys for Qplum, an AI-based portfolio-investment platform for US investors.

Education

3 degrees · 1 certificate

Onetech Ventures Oct 2016 — Apr 17	UX Specialist · Bangalore Web applications end to end — requirements gathering, interviews, design walkthroughs, empathy and scenario maps, wireframes, UI and prototypes.
